## TOURIST TRAVEL LIGHT.

Burlington Is Not Getting So Much as Usual.

Burlington, July 29.—Thus far this season Burlington has not had the opportunity of harboring its usual number of summer tourists, but if reports from the White Mountains are true, the month of August will bring out a large number of tourist parties. All the rooms in the new Mount Washington house will be filled by August 1. It is stated, and the Mount Pleasant house, which is near the Mount Washington house, will be well filled in the course of a week or ten days. As a general thing during the month of July travel is much better than it has been during the present month. Several reasons for the falling off are given, among which are the fact that a large number of tourists, instead of going to the mountains this season, have gone abroad.

## EDMUNDS IN VERMONT.

Former United States Senator Arrives in Burlington.

Burlington, July 29.—Ex-Senator George F. Edmunds, wife and daughter, arrived today from Philadelphia. He will attend the Vermont Bar Association meeting next week.

May Be Prof. Lentini.

The following newspaper clipping may refer to Prof. Lentini who left Barre for New York two years ago:

An Italian gave a touching exhibition of a disordered brain at Bellevue hospital, Monday. He was placed in the psychopathic ward, because he thinks himself Verdi reincarnated, and the doctors took away his violin and mandolin. But he begged so that his violin was brought to him, and he clasped it to his breast, crying, "O my love! my love! did they think to part us?" It calmed him; he played, and some of the Italians sang to his playing of operatic airs. After awhile the doctor in charge persuaded Lentini to close his concert, promising that he should have his instrument for a time every day. It would seem that Lentini's insanity is better than many men's right minds.

## Elevator Speed.

The highest speed which can be attained in an "express" elevator in a very high office building is about seventy feet a minute. That is equivalent to a mile in more than seven minutes, and many a pedestrian has walked for considerable distances at nearly as fast a pace.

## Animals in Japan.

Japanese birds build their nests in the city houses. Wild fowl, geese and ducks alight in the public parks and wild deer trot about the streets.

## POPULAR MUSIC

### NEW SELECTIONS.

"The Girl of My Dreams," a delightful waltz song.

"For Sale, a Baby," Harris' most popular pathetic song.

"On the Pillow of Despair," a popular song by Arthur J. Lamb.

"Uncle Sammy," Hodgman's latest and best march, played by Sousa.

## Workingmen's Pants!

A poor, cheap pair of Trousers is a bad investment for a workingman. The man who buys his Pants here will never get a poor pair. For workingmen we select good, strong, serviceable materials, in neat patterns, and then the best manufacturer in the country makes them with all possible care. They are reinforced at every point where there is any strain. Seams well sewed, buttons put on to stay, and not an item omitted that would add to their strength or durability. Then, when selling them, we say "Money back if anything goes wrong."
